

**DIRECT HIT SCORED ON A "JAP" CRUISER IN RABAUH HARBOR**

Two Other Vessels Hit; These In Addition To 23 Sunk Yesterday

**ALSO BOMB AIRDROME**

Buildings at Koepang Field Again Hit; Fires Seen For 50 Miles

CANBERRA, Australia, Mar. 19—(INS)—Heavy new air attacks by American and Australian bombers during which a heavy Japanese cruiser received a direct hit and two other vessels were lashed by "near misses" were announced by Prime Minister John Curtin today.

The cruiser was hit directly by a bomb at Rabaul Harbor, New Britain Island.

Reports from Sydney said two other Japanese vessels at Rabaul also suffered direct hits.

(Editor's Note: These new aerial successes, five in number, were in addition to the 23 Japanese ships listed as sunk or hit by combined United States and Australian air forces in raids on New Guinea bases.)

(Thus the total of Japanese war and merchant vessels sent to the bottom or dealt damaging blows rose to 28.) Curtin announced that the United Nations planes raided Rabaul during the daylight hours of yesterday and scored a direct hit on the stern of the Jap heavy cruiser.

The report that two other vessels also received direct hits at Rabaul was not included in this communique, but was put out by reliable sources at Sydney.

The communique said the attacking planes also bombed the airdrome at Koepang, Dutch Timor Island, yesterday.

**To Accept Applications For Crop and Feed Loans**

For the convenience of Bucks County farmers, applications for Emergency Crop and Feed Loans will be accepted by John Bellow at Morrisville, it was announced by State Supervisor D. G. Rose of Harrisburg.

"Loans up to \$400 are available," Rose stated. "The interest rate is 4 per cent, and no inspection fee is charged. It is the policy of the Emergency Crop and Feed Loan Office, which is a part of the Farm Credit Administration, to lend no more than the borrower can conveniently repay from his farming operations. Every effort is made to keep down the expense of the loans both to the borrowers and to the Government. We are co-operating in the 'Food for Freedom' program, and insist that the borrowers have good home gardens in order that they may produce as much food as possible for home use."

He stated that the primary factors in determining eligibility are the character of the applicant, his ability to produce and take care of his crops, and the acreage and crops to be planted. The only security required is a note and crop lien on the particular crops to be financed. In the case of loans for the production or purchase of feed, Mr. Rose said, a chattel mortgage on the livestock to be fed is the security required.

Mr. Rose stated that the field supervisor would be at the County Agent's Office in Doylestown, Tuesday morning, March 31st.

**Army Bombers To Stage Surprise "Raid" Today**

PHILADELPHIA, Mar. 19—(INS)—Sometime today U. S. Army bombers will stage a surprise "raid" against metropolitan Philadelphia in an attempt to determine whether it is possible for enemy planes to reach important targets before being intercepted by swift fighting craft.

The area's volunteer plane spotters, who work on a 24-hour basis, will also be put to the test. They have not been told when the bombers will appear because Army officials wish to know if they are "on their toes."

The city's population, however, will probably never know the results of the "raid," since authorities declared they will not release any news after it has taken place.

**JUST A RUMOR**

Reports were circulated yesterday and today to the effect that a "Jap" had been 'picked up' on Mill street. This is the basis of the rumor; a Chinaman from Burlington was in Bristol yesterday looking over business conditions, and because he was seen in various parts of the town and in the mill district, police were notified. The police detained the man for questioning until he had proven his identity and the fact that he was a well-known resident of Burlington and the proprietor of a restaurant in that city.

**H. J. HOLT**

**LATEST WAR BULLETINS****Three Germans Under Arrest**

Rio de Janeiro—The Brazilian Government today smashed forward with its attempt to break up a well-organized Axis ring in this country by arresting three prominent Germans in the State of Paraiaba, all of whom allegedly confessed Nazi activities.

The chief prisoner was Otto Pruntzek, local leader of the so-called "German Comrades Organization" in Joao Pessoa, capital of the strategic northern State of Paraiaba. The organization is connected with the National Socialist Legion.

In the raid which resulted in Pruntzek's arrest, authorities confiscated a large amount of propaganda material, maps of Paraiaba printed in German, and pictures.

A letter signed Hans Albrecht, believed to be a German group leader, instructing Pruntzek to intensify his espionage activities, also was seized.

**Jap Bombers Raid Port Moresby**

Washington—The War Department announced today that Lieut. General Joseph W. Stilwell, of the U. S. Army, is commanding two Chinese armies in Burma.

**HERE AND THERE IN BUCKS COUNTY TOWNS****Activities of Interest To All in The Various Communities****GLEANNED BY REPORTERS**

The food bank drive will be conducted in Morrisville, this evening, between six and nine o'clock, by the food conservation department of the Morrisville Women's Defense Unit.

Mrs. Minnie Braker is chairman of the drive and announces that each home in the borough will be visited during these hours. Each residence is expected to contribute one can or jar of food and one empty quart jar. Food collected will be kept in the local food bank and the empty jars will be used for canning later by the food conservation committee.

Everyone in the borough is asked to co-operate in the drive. Cars driven by volunteers will assist the ladies in immediately taking the food to the local food bank, where it will be available for local use in case of an emergency.

Oswin Weikel, night watchman at the Sellersville National Bank, had a surprise when he returned to his home. Thieves had entered his hen house and stole approximately 25 of his flock of 60 chickens.

A dead fowl lying on the ground was the first inkling of the theft. "Evidently it was killed by a club which the robber left behind," said Mr. Weikel in describing the theft this morning.

"When I saw the freshly killed chickens I knew something was up," he continued. His suspicions were confirmed when he counted them. Freshly made tire tracks point to the fact that the thieves used a small truck in their visit.

Mrs. Mary Jane Trauch, one of the oldest residents in Upper Bucks county, celebrated her 85th birthday anniversary at the home of her son-in-law and daughter, Mr. and Mrs. Jacob Koch, Perkasie.

Mrs. Trauch, who fractured her hip more than four years ago, has been bedfast since that time but continues to remain in fair health.

An unusually high price was received for wheat at the sale held at

**RED CROSS TRAINED 3,000 INSTRUCTORS****Swamped With Calls Following Attack on Pearl Harbor****MET SUDDEN DEMAND**

One important bottleneck on the home front has been broken in the Philadelphia area with training of almost 3,000 new first aid instructors, Herbert L. Badger, chairman of the Red Cross Committee on Rescue, announced today.

Training of such instructors is one of the duties of the Southeastern Pennsylvania Chapter of the Red Cross, which is raising \$2,500,000 as its share of the national \$65,000,000 Red Cross War Fund.

"When the Japanese attacked Pearl Harbor," Mr. Badger said, "we were swamped with calls for instructors for the first aid classes that were being established in every section."

"We met all the demands that we could but there were at that time only 300 qualified instructors in the Chapter area."

"To meet the sudden demand we began at once training instructors, each of whom is required to take a course under our staff experts in order to qualify to teach others in first aid work."

"There are now close to 3,000 instructors who have completed or are just about to complete their courses. Each of them can handle, on an average, three first aid classes of 20 to 40 members a week. It is possible, even, for one instructor, who has sufficient time, to handle about 500 persons a week in first aid courses."

"The generous response of the public to the call for men and women to qualify as instructors has made it possible for us to cope with the present rate of demand for first aid courses."

"For this reason we have shut down our classes for instructors as we believe that the supply we now have will be sufficient to take care of the needs of this area unless there should be a sudden new spurt of requests for establishment of courses."

"The new group of instructors will take part in graduation exercises with 1,000 Red Cross service volunteers at a Red Cross Assembly at Convention Hall a week from tomorrow. They represent almost every group in the community, among them being nuns who teach in parochial schools, public school teachers, lawyers, physicians, nurses, janitors, and employees of such places as the Quartermaster's Depot, the Navy Yard, and defense and other industrial plants."

**URGES RESERVE SUPPLY OF FOOD BE CONSERVED**

Leigh Mitchell Hodges Tells of The Need To Save The Surplus

**ASK ALL TO ASSIST**

Leigh Mitchell Hodges, in asking that Bucks Countians do their full share in the war effort, and likewise be prepared to meet any emergency, has issued the following statement: Air bombs may or may not fall on Bucks county.

If they do, some of our people may be killed or wounded. That will call for medical, nursing and hospital care. Air bombs that fall elsewhere may bring refugees into Bucks County. If so they will have to be housed and fed.

These things are possible and we should be prepared to deal with them when and if they happen.

Now focus your thought on a day-to-day certainty in which there is no if; the most vital matter in all of our homes.

Every man, woman and child in Bucks county must eat three times a day, every day. Food is our first need; the fuel without which bodies and brains would be as useless as a burnt match.

War makes many foods hard to get because it hinders sea-shipping and demands military use of land transport. War also demands vast production of foodstuffs for our fighting forces at home and abroad. War machines require metal that used to go into food containers.

All of this means food shortages, and like other Americans, we Bucks countians are facing some of these right now. We'll have to face more as the weeks go on.

It's hard, cold fact that these shortages might cut down our home food supply to a point where many of us wouldn't have enough to keep us strong and healthy unless—and here's the way we've got to fight first—we build up a reserve supply of the kinds of food that make for health and strength; the vegetables and fruits that contain the necessary vitamins and minerals for ourselves and victims of disaster in our county.

We can do this by home and community canning and drying of what we grow on our Bucks county farms and in our gardens.

We've started this already under the direction of the food conservation committee of the Bucks County Council of Defense. Even now reserve supplies of canned goods for refugees and

**One Man's Opinion**

By WALTER KIERNAN (I. N. S. Staff Writer)

The fellow whose number came out first with our draft board wired MacArthur "Hold everything 'till I get there."

He is just an average guy but he figures that with MacArthur leading the band he could take Tokio with cap pistol and an Indian war whoop.

A lot of plans have been suggested for stepping up war production—Rether plan, Murray plan, Nelson plan. The "MacArthur plan" would look good in there.

Section one, article one would read "Get the job done."

That's all, brother.

Stick that on factory bulletin boards with a photo of General MacArthur and we wouldn't need anything more.

"The MacArthur plan—get the job done." Not copyright—take it away, brothers.

Thought for the day: Tokio papers please copy.

**URGE CO-ORDINATION OF DEFENSE GROUPS FUNCTIONING HERE**

Fathers' Association To Name Committee To Consult Bristol Defense Council

**EQUIPMENT IS NEEDED**

Want To Learn What Authority Bucks Defense Council Has Over Bristol Council

The opinion was expressed at a meeting of the Bristol Fathers' Association last night, that more freedom should be given to the local groups to organize for defense activities; equipment should be procured and that the various groups now functioning should be co-ordinated.

It was decided to name a committee to contact the Bristol Defense Council and learn what its duties and functions are and how much authority it has. It was also decided to ascertain what relationship the Bucks County Defense Council has to the Bristol Defense Council and what jurisdiction the County Council exercises over the Bristol Council.

The committee to contact the Bristol Defense Council is to be named by Thomas Coles, president of the Fathers' Association.

With the air raid sector wardens of Bristol invited as guests and with Deputy Air Warden, John E. Healey, as the speaker, the monthly meeting of the Bristol Fathers' Association, last night, developed into a discussion of home defense activities in Bristol.

The meeting was held in the high school cafeteria where a spaghetti supper was served. Following the supper there was a short business meeting and then Mr. Healey was introduced as the speaker of the evening.

In his talk Mr. Healey dwelt upon the meaning of a totalitarian war, its objects and its results. He described how such a war is accomplished and the methods which are used.

With this as a prelude the speaker then outlined the air raid warden set-up as existing in Bristol and showed the great progress which has been made here.

Mr. Healey also described an incendiary bomb, its affects and how it should be handled.

During the discussion it was brought out that as yet decontamination squads have not been organized here nor have first aid stations been designated in various sections of the borough.

It was the consensus of opinion that every precaution should be taken in this vital defense area and that this area is likely to be an objective should bombings occur along the eastern seaboard.

The opinion was expressed that more freedom should be given to the local group to organize for defense activities.

In addition to Mr. Healey the sector wardens present included William H. H. Fine and Lester D. Thorne.

## INEFFICIENCY INEXCUSABLE

Newbold Morris, President of the New York City Council, was quoted as saying in a recent address, in which he chided Americans for their defeatism and discontent, that "people sometimes forget that under a democratic form of government it takes time to mobilize our resources. We expect to have fresh victories served up with our morning coffee."

Passing by that unusual metaphoric tid-bit and discussing Mr. Morris' main theme—that under a democratic form of government it takes time to mobilize resources—it might be pointed out that Mr. Morris appears to forget that democracy in the world today is in a life and death struggle with other forms of government which do not condone inefficiency.

Before the rise of dictatorships it was possible for democracies to be inefficient and still survive. It is questionable today whether they can be laggard in mobilizing their defenses and continue to endure.

Perhaps the spirit of discontent which Mr. Morris finds is nothing more than a realization of the fact that democratic government is today facing its greatest test. The people of this country have a comprehension of events that have been taking place in the world. They have seen one great democracy perish because it took too much time to mobilize its resources. These discontented Americans do not want that to happen here.

Some persons seem to assume that because democratic countries managed to win victories in the past, despite their bungling, they are destined to win again. But they are facing a different kind of world. They are in battle with totalitarian states which, however harsh in dealing with their people, are nevertheless efficient in the business of waging war. Democracies are forced to emulate their efficiency but need not imitate their evils.

## WHAT REALLY COUNTS

Unfortunately, much of the comment following the failure of the United Nations to check Japanese progress in the East Indies indicates a belief that in important centers of authority there has been a lack of that spirit without which victory is never won.

In support of this thesis can be quoted a typical comment made by an Australian general whose troops may soon be engaged in a struggle to determine whether the island continent is to remain a unit in the British Commonwealth of Nations or is to become a vassal of Japan:

"The defensive spirit," he observes, "develops a retreat complex. I have seen responsible officers in Malaya asking when a retreat will be ordered even before they have dug into their positions." This, it is to be assumed, is his explanation of what led to the loss of Singapore. From there, he went on to this:

"It is not the size of the dog-fight that matters—it is the size of the fight in the dog." And that appears to be his hope for Australia, a country whose soldiers have proved their fighting qualities in Europe, Asia and Africa, and now have a chance to prove them anew at home.

Bill Bullitt, favored by the White House for governor of Pennsylvania, has been turned down by the labor unions—so perhaps the voters will have to elect the next governor after all.

## Direct Hit Scored On A 'Jap' Cruiser in Rabaul Harbor

day for the second time in 24 hours. "Large numbers of bombs were dropped and hits were observed on runways and buildings," the communiqué stated. "Fires were visible for 50 miles. "One aircraft failed to return. "Shipping in the center of Rabaul Harbor was bombed successfully. A rising column of smoke followed a direct hit on the heavy Japanese cruiser. "Near misses were scored against two other large vessels. "Reconnaissance flights were made over other parts of the New Britain area. "Enemy fighter planes made recon-

naissance flights over Papua and New Guinea and the islands near Cape York yesterday. No offensive action was taken.

"Later enemy fighters attacked shipping in the vicinity of the Cape York Islands, but no damage was reported."

The new raids were part of the continuing United Nations' onslaught against Jap bases north of the Australian mainland.

Curtin's announcement was issued as the Commonwealth remained in a jubilant frame of mind over the appointment of Gen. Douglas MacArthur as supreme commander in this area and over the formal announcement that "considerable" American forces are now in this country.

The latest United Nations aerial blow was delivered in reply to two Jap air raids on Tulagi, capital of the Solomon Islands.

In the first of these raids bombs were dropped from 8,000 feet, a flying boat was slightly damaged and two or possibly three natives were killed. The second raid caused no casualties and only slight damage. Florida also was raided.

No commander of the Australian forces has yet been appointed to work under Gen. MacArthur, but informed quarters said an Australian of high reputation will be chosen.

It was expected a high Australian army officer will be appointed to MacArthur's staff and that Australian air force and navy officers also will hold important posts.

BRISTOL THEATRE

Throughout most of the sequences of "Confirm or Deny," starring Don Ameche and Joan Bennett, a tough looking white English bull dog follows Don Ameche, who plays the role of an American war correspondent in bomb-ravaged London.

The dog effectively symbolizes the qualities which have made the English people so long able to resist the assault of the Luftwaffe.

Seven songs have been written by Milton Rosen and Everett Carter for "Sing Another Chorus," at the Bristol Theatre.

RITZ THEATRE

Andy Devine exhibited a very red face during the shooting of "South of Tahiti," currently at the Ritz Theatre. After proving himself the bravest member of the cast in the scenes with the leopards in the picture, he nearly lost a finger to a tiny suckling pig with which he had one brief comedy scene.

Lupe Velez appears in "Mexican Spitfire's Baby."

## BRISTOL HIGH GIRLS WON SIX GAMES, LAST FIVE IN BASKETBALL SEASON WHICH HAS JUST ENDED

The Bristol high girls in their first season of basketball under Coach Phyllis Kallenbach, won six games and lost five. Several of the games were lost by close margins and with more experienced players in the Bristol lineup, may have changed the score.

In 11 games, Coach Kallenbach's lassies counted 317 points while their opponents hit the cords for a total of 216 points. The local sextette dropped close games to Bensalem, Southampton and Pierce School. At one stage of the season, the Cardinal and Gray girls had won four straight games only to have the streak stopped by Bensalem in a thrilling game on the local floor.

In most of the contests, Bristol always had the lead at the outset and managed to keep it throughout the first half but in the second half, the localities seemed to falter and always dropped their lead.

Helen VanAken paved the way for many Bristol victories with her sharp-shooting from all angles of the floor. Helen scored one-half of Bristol's points with a 159 total for the season. Genevieve Gwochka had 98 tallies for the season, while the diminutive Gladys Cochran, who confined most of her playing to passing in the forecourt, had a total of 54 points.

Outstanding among the guards on the team were: Mary Bell, Brownlee, Emily Sak, and Heath.

## Here and There in Bucks County Towns

Continued From Page One

the home of Mrs. Nellie Shull, near here, E. Newlin Brown, Doylestown, who occupied the auction block, found bidding on the grain quite lively, and in a very short period approximately 100 bushels of wheat sold at \$1.05 per bushel.

Although weather conditions for holding a sale were not favorable, approximately 150 persons attended, and very satisfactory prices were received throughout the afternoon.

Other crops offered included about 200 bushels of oats, which brought 60 cents a bushel; about four tons of corn, which sold at \$24.50 per ton, and baled hay, which went well at \$23 a ton.

A horse sold for \$69. Seven head of Guernsey and Jersey cows ranged in price from \$56 to \$130. Three heifers were sold from \$44 to \$81 each and a

calf went to the high bidder for \$33. Interest centered also around the disposal of a large number of burlap grain bags for 19 cents each. One hundred and twenty-five New Hampshire red hens sold for 26 1/4 cents a pound.

Prices received for the farm machinery and implements were as follows: manure spreader, \$80; ensilage cutter, \$40; tractor plows, \$43 and \$56; tractor, \$39; springtooth harrow, \$20; cultivator, \$18; extension ladder, \$11; milk cans, \$2.60 each; milk pails, \$1.10 each; harness, \$4.50 per set, and log chain, \$3.75.

The sale was in charge of Mrs. Shull's father, Newberry L. Myers, of Wismer, and the clerks were Henry S. Kriebel, Dublin, and Harry Myers, of Wismer.
